Consent for Assessment and Treatment

Assessment and treatment at Thrive Physio may include, but is not limited to: manual therapy techniques, spinal manipulation, electrotherapeutic modalities, acupuncture, registered massage therapy, and exercise. It is the policy of Thrive Physio to ensure that each patient is educated about the benefits, side effects, and potential complications of each of the treatment modalities used by our therapists to decrease symptoms, and improve function, before use.

If you have any questions or concerns about any of your recommended treatments, you must inform your healthcare provider immediately, so they can explain the treatment rationale and/or modify your program accordingly. If at any time you choose not to participate in any type of treatment, you must inform your healthcare provider immediately.

I understand and agree with the above criteria and, in compliance with the "Consent to Treatment Act" Bill 109, voluntarily consent to participate in an assessment and treatment program for my stated injury(ies) at Thrive Physio.

I understand that my consent may be withdrawn at any time during my treatment after informing my healthcare provider at Thrive Physio, and that I may stop or alter my physiotherapy/massage therapy treatment at any time.
